

NATIONAL FEEDER & STOCKER CATTLE SUMMARY - WEEK ENDING 02/19/2010

RECEIPTS:	Auctions	Direct	Video/Internet	Total
This Week	255,600	72,100	48,000	375,700
Last Week	185,900	48,600	1,800	236,300
Last Year	300,500	32,800	49,200	382,500

Compared to last week, feedlot replacement cattle weighing over 800 lbs sold steady to 3.00 higher while stocker cattle and calves traded sharply higher. Steers and heifers under 800 lbs trended 3.00-10.00 higher, mostly 4.00-7.00 higher as the demand for grazing cattle has turned aggressive with graze-out wheat and early grass interests fighting over stockers. Trading was extremely active on lightweights (under 550 lbs) but maybe not quite as fervid as the desire for the thin fleshed 600-750 lb (two-way cattle) that provoked bids from both grazers and feeders. Producers that were cursing the harsh weather and unable to move their cattle to market until this week were handsomely rewarded. A large percentage of these cattle have barely held their weight over the last several weeks and were showing signs of weather stress, which actually spurred buyers on. A rugged and haggard appearance along with thin flesh and an empty weighing condition is irresistible for stocker buyers looking for compensatory gain. However, some of the calves on offer in the winter weary Midwest had actually crossed the line over to poor condition, discouraging buyers with long-haul orders but local backgrounders stepped-in on these occasions. The skyrocketing calf and yearling demand culminated as progressively lighter numbers of beef cows and feeder cattle have finally been supported from a surging fed cattle market. Showlists were sold mostly 3.00 higher in the Southern Plains at 92.00 and 5.00 higher on a dressed basis in the Northern feedlot areas at mostly 145.00. The bitter cold and miserable weather has taken its toll on fed cattle weights with this week's estimated live weight of all slaughter cattle 26 lbs lighter than one year ago. This results in more than a 12,000 head shortage of all classes of slaughter cattle each week for packers to harvest. Many feedlots in the Northern Plains are reporting steers and heifers hitting the showlist 50-100 lbs lighter than their computers had them pegged. The current fed cattle plant delivered dressed carcass price is virtually the same as the reported Select and Choice boxed beef cut-out value. This leaves packers with only the drop value of the hide and offal to pay the expenses from the unloading chute all the way to the loading dock. Friday's cattle-on-feed report showed 97.4 percent of last year's total being fed on February 1st. Feeder cattle placed into feedlots during January were 98.2 percent of 2009, despite the difficult conditions. Fed cattle marketings were 2.1 larger than a year ago and this figure was the only one of the three categories that fell on the bullish side for the feeder cattle market, as on-feed totals and placements were slightly larger than analyst's expectations. Next week will show if the industry responds to this data, which has largely gone ignored recently. This week's reported auction volume included 57 percent over 600 lbs and 44 percent heifers.

Southcentral Region (TX-OK-NM-KS-MD)

Compared to the last sale, feeder steers and heifers over 700 lbs sold 1.00-3.00 higher, under 700 lbs were 3.00-5.00 higher with instances of more. Recent snows have raised expectations for grass this summer in almost all areas of the Southern Plains and many producers have begun to put their grass calves together. Prices for 600-700 lbs feeders particularly have jumped, as the need for these short yearlings bound for the Flint Hills and Osage rises. The Southcentral Region sold approximately 63 percent of the receipts.
