

NATIONAL FEEDER & STOCKER CATTLE SUMMARY - WEEK ENDING 03/26/2010

RECEIPTS:	Auctions	Direct	Video/Internet	Total
This Week	234,200	64,400	9,800	308,400
Last Week	266,400	39,400	35,100	340,900
Last Year	242,400	36,600	10,900	289,900

Compared to last week, steers and heifers sold 1.00-3.00 higher with the best demand continuing for 550-700 lb stocker cattle for spring grazing but feedlot buyer demand was not far behind with lower corn prices and empty pens to fill from the last few weeks of brisk fed cattle movement. Receipts were much lighter this week, following the first round of wheat cattle shipments and the dwindling numbers of fall-born calves left for sale. But, the main cause for reduced supplies hitting the market this week was the relentless winter that refuses to give up its reign and again dumped snow and cold rain across much of the major cattle production areas last weekend. The Oklahoma National Stockyards operated on reduced receipts, while the Tulsa Stockyards were forced to close and the Joplin Regional Stockyards postponed their sale until Thursday due to over a foot of new snow. Spring-like rains followed, leaving much of the Plains and all of the Midwest in a boggy mud-hole that challenges the height of knee-high muck-boots. It was hard to tell what color some of the auction feeder cattle were this week and the quality of the available lightweights was subpar as we move into cleanup sales, but the prices that these plainer cattle yielded were reportedly within a short-arm's reach of the best ones that walked. Many producer's corrals and working facilities virtually have no bottom to them and heavy concentrations of expectant mothers have destroyed calving pastures as precious hay is being used to clog the worst of the soupy pits. Current conditions should be another alarm for spring cow/calf producers who have the ability to calve in the fall. A fall-born calf crop enters the world under much better conditions and receives more buyer demand at every salable weight than does the typical spring-born calf. Plus, a transition by those producers with the flexibility to do so - would lighten the flood of calves hitting the market in the fall and in-turn help cow/calf men that live in an area where fall calving is not an option. The fed cattle complex saw an unusual trading session this week, after last week's fruitful trade that brought Southern Plains fats to within 2.00 of 100.00. Measurable trading was actually seen on Monday and every other day of the week to follow, with the bulk of the sales steady to 1.00 lower at 97.00 live in the south and 152.00 dressed in the northern feedlot areas. April CME Live Cattle contracts lost nearly 4.00 for the week, offering enticing basis opportunities for hedged feeders but also hinting that investment funds may be done riding the cattle wave. Fundamentals remain strong and perhaps the tight numbers of beef cattle at every level have finally hit home with boxed beef cut-out values gaining 6.00 this week, reaching levels not seen since the summer of 2008. This week's reported auction volume had 49 percent over 600 lbs and 44 percent heifers.

Auction Receipts: 234,200 Last Week: 266,400 Last Year: 242,400
