

NATIONAL FEEDER & STOCKER CATTLE SUMMARY - WEEK ENDING 04/30/2010

RECEIPTS:	Auctions	Direct	Video/Internet	Total
This Week	260,700	60,800	63,700	385,200
Last Week	258,700	79,200	9,400	347,300
Last Year	258,600	35,800	44,700	339,100

Compared to last week, steers and heifer calves sold fully steady to 4.00 higher, with the full advance being paid on the popular 400-550 lb calves. Yearling steers and heifers sold steady to 2.00 higher. In the Southeast feeders were steady to 3.00 higher. Last Friday's Cattle on Feed report indicated lower than expected numbers with March placements substantially smaller than expected helped to set the stage for this week's markets. This is helping to keep demand very good for feeders as buyers are still aggressive to own feeder cattle as it seems the scramble is not likely over. Feeder cattle receipts are looking to become more limited as we move into May with many new crop calves being very prominent at the auctions. Wide spread rain over the Cornbelt last weekend stopped planting and might have helped the farmer-feeder to come back into the market this week. Corn planting is off to a record start with more than half the corn planted during the first three weeks of April. With key production areas well ahead of the normal pace as in Iowa, Illinois, and Indiana are mostly 60-70 percent completed. Most fed cattle sold on Tuesday with the Southern Plains selling .50-1.00 lower on live prices at 98.00-98.50 and dressed sales in Kansas 1.00 lower at 158.00. Nebraska sold dressed sales mostly 2.00 lower at 158.00 and live sales 1.00 lower at 99.00-99.50. On Tuesday, the Stock Market fell sharply over 200 points on debt crisis in Europe over Greek debt financing. This spilled over into the live and feeder cattle futures on Tuesday and Wednesday, as they were sharply lower. The bulls mounted a rally in the Stock market after Tuesday, rallying the rest of the week on a strong earnings report. Stocks recovered along with live and feeder futures on Thursday and Friday. Nothing though has changed on the supply and demand side to justify lower beef prices at this time. Feedlot inventories and feeder cattle numbers remain tight and wholesale beef cutouts still continue to climb higher. The boxed beef cutout reached the 170.00 level this week closing on Friday at 170.21, almost 20.00 higher than a year ago at this time as it was trading around the 150.00 mark. With global beef and pork supplies significantly lower than last year is staging a bullish price outlook for the year as competing meat prices from pork and poultry are supporting beef retail prices. The cow carcass and meat prices have also moved up significantly as decreasing cow numbers has the beef cow slaughter well above year ago levels as cow culling remains very aggressive. Demand for grinding beef remains very supportive as grinding beef prices have raised sharply higher. This week's reported auction volume included 46 percent over 600 lbs and 47 percent heifers.

Auction Receipts: 260,700 Last Week: 258,700 Last Year: 258,600
