

NATIONAL FEEDER & STOCKER CATTLE SUMMARY - WEEK ENDING 07/02/2010

RECEIPTS:	Auctions	Direct	Video/Internet	Total
This Week	123,900	67,100	95,200	286,200
Last Week	181,500	52,100	22,900	256,500
Last Year	82,500	100,900	1,200	184,600

Compared to last week, a light pre-holiday test of feeder and stocker cattle sold steady to 3.00 higher. Tight supplies continue to enable higher prices with buyers showing good demand for top quality calves and about any make or model of yearlings. The 4th of July mid-summer marketing break usually sets aside one full week for feeder cattle buyers, sellers, and commission men to clear out their pens and shut-down for a few days. But, with our nation's birthday falling on a Sunday this year, marketing merely crept along this week and is expected to do the same for the post-holiday week. This week, Kentucky's major marketing center (the Blue Grass Stockyards) was completely closed as well as many late-week single day auctions. Next week, the Oklahoma National Stockyards will shut-down as well as most early-week salebarns. However, some major auction markets (like the Joplin Regional Stockyards) don't plan to miss a beat right through the Independence Day Holiday. On-site auction movement may be currently slow, but video sales are brisk and the predominant market levels for future delivery late summer and fall calves and yearlings will most likely be set after these two holiday-split weeks. The Northern Livestock Video auction based from Billings, MT offered over 42,000 head followed by the inaugural sale by Cattle Country Video based from Torrington, WY with 51,000 head up for bids. Starting Monday July 5th, Superior's annual "Week in the Rockies" will feature 346,000 head - followed the next week by the Western Video Market with 165,000 head consigned. A portion of these cattle may be passed out, but by the conclusion of these auctions the fall market for contract feeders will be well established and producers will either accept these levels or hold their cattle until they're ready to ship. Several Midwestern salebarns have Specials scheduled in early July (like Bassett, NE and Green City, MO) and with help from local farmer-feeders they often achieve price levels beyond mainstream ranges and can raise national averages when receipts in other areas are light. The fed cattle market showed some support this past week with the bulk of the Southern Plains trading steady at 91.00, after a trickle of early sales at 90.00. Northern feedlot areas sold steady to 1.00 higher from 91.00-92.00 and 145.00-147.00 (mostly 146.00) dressed. CME cattle futures held up fairly well following the initial shock of Wednesday's USDA Planted Acreage Report which estimated 87.872 million acres of corn, which was 1.6 percent more than last year but well below expectations and sent CBOT futures soaring to near limit highs. This week's reported auction volume included \*\*51 percent over 600 lbs and \*\*42 percent heifers.

Auction Receipts: 123,900      Last Week: 181,500      Last Year: 82,500
